BUSINESS STUDIES

Business Studies enhances financial literacy by enabling students to develop the knowledge and skills to manage the financial affairs of individuals, communities and businesses.

Studying **Accounting** gives students the tools to make real-life financial decisions in a constantly changing and uncertain world, as they learn the accounting processes and financial statements that are used by a range of businesses, from sole traders in Year 11 to partnerships and companies in Year 13.

Studying **Economics** enables students to attain a level of economic literacy and understanding which allows them to develop a continuing and critical interest in contemporary economic issues, theory and reality.
